---

Adding branded tissue paper to promotional paper bags can instantly increase the value of the overall gift or purchase.

# Bags Kraft Paper

The advantages of using kraft paper bags:

## 1. Kraft Paper Bags Are Environmentally Friendly.

- Paper bags are made of material that is easily regrown.
- If they happen to be thrown away or sent to the landfill, they are biodegradable.
- Consumers can recycle paper bags.

## 2. Paper Bags Can Be More Customized

- Kraft paper really takes well to print.
- Paper bags aren't usually crumpled, so any branding is able to stand out clearly and be noticed by consumers.
- Paper bags come in a variety of shapes, thicknesses, and sizes, which adds to the potential for customization.

## 3. Branding with Paper Bags

- With kraft paper bags, you can make use of colour and fonts.
- It offers more versatility and durability than plastic or other packaging.
- Food stays fresher when packaged in paper bags.

## K r a f t   p a p e r   b a g s

Eco friendly packaging for  
branding, gifting, foods or shopping  
purpose.

### INNER TRAY:

- blister ,satin blister,satin cardboard,flocking EVA ,Flocking foam
- MOQ :1000pcs

# Collapsible Box

## Storage Space

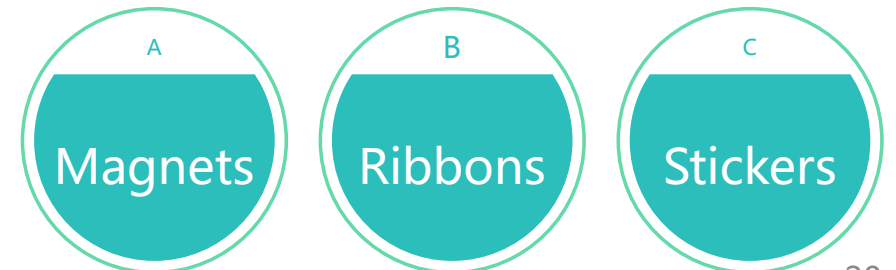

The primary benefit of having box pallets that collapse is that they create more efficient storage space. They take up less space when they are collapsed, freeing up storage space for other items when the box pallets are not in use. A user can easily fold the walls of the box pallet down by releasing latches and can tuck the folded up bins away until they are needed.

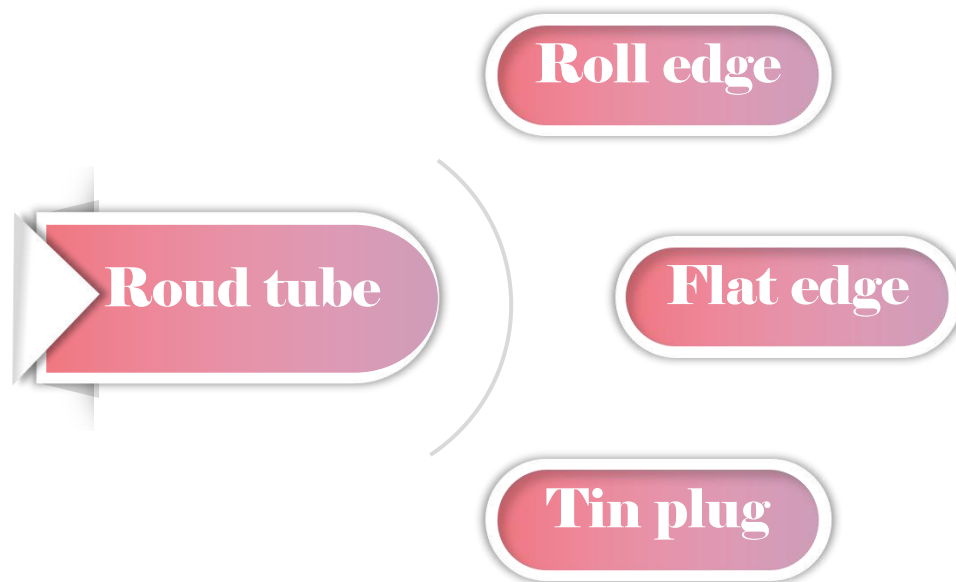

## Packing and Shipping Costs

Box pallets in general are protective containers that often preclude the need to find packing solutions that adequately safeguard products. Their rigid materials are capable of keeping products safe on long and bumpy journeys. Collapsible box pallets offer the added bonus of reducing return shipping costs.

## Types of Collapsible Box

# Paper Tube

Paper tubes, also known as cardboard tubes, are cylinder-shaped components that are made with cardboard. Paper tubes can be used for a wide range of functions. Typical paper tube applications include shipping and mailing, cartridge fabrication, crafts, concrete pillar construction, structural support (posters, paper towels, etc.), storage (documents, art, food, etc.) and gardening pots.

## **MATERIA**

# Our factory

Located in Dongguan and Yiwu, our factory specializes in paper bags, boxes packaging. Approximately 70% of products are produced within our factory to ensure a consistent quality and supply to clients. The remaining 30% is outsourced to nearby local factories where particular machinery or skill sets are required.

As a medium sized factory, we employ between 50 to 70 workers, which keeps management costs low and ensures we can offer a competitive price for a quality product delivered within the agreed terms.

Equipment includes:

Heidelberg (4 color printer)

Roland 700 (UV) (6 & 8 color printer)

Silk-Screen Printer

Litho laminator (Matte & Glossy lamination)

Calendering Machine UV coating Machine

Embossing/Die-cutting Machine

Hot Foil Stamping Machine Box Forming Machine

Semi auto Diecut Machine

01

## Sampling

Make pre-production samples according to your printing design and logo. The sample cost will be returned after formal order placed. Provide exist samples for free.

02

## Production

8 assembly lines and advanced production equipment which largely shorten our lead time.

03

## Quality Control

The quality and management policy were followed 5 S principles and ISO systems. Every product will be strictly checked by our QC before delivery.

04

## Shipping

Unit box is packed by polybag in case of scratches during transportation. Best Quality 5-layers exporting carton
